TASK 4.1: Understanding and comparing the use of colors in art

- After watching the second part of the video and with the support of the website linked in the task 4.2 button, work in pairs analysing the use of colors by the artists Van Gogh and Picasso in the following pictures. For the discussion you can follow the suggested points below. Compare and discuss the differences between the two artists.
- What feelings the pictures convey? Energy? Calm? Happiness? Sadness?
- Do they mostly use close colors in the wheel or complementary?
- Do they use warm colors, cold or a mixture? Why do you think they do that?
